

1. Creating workspace

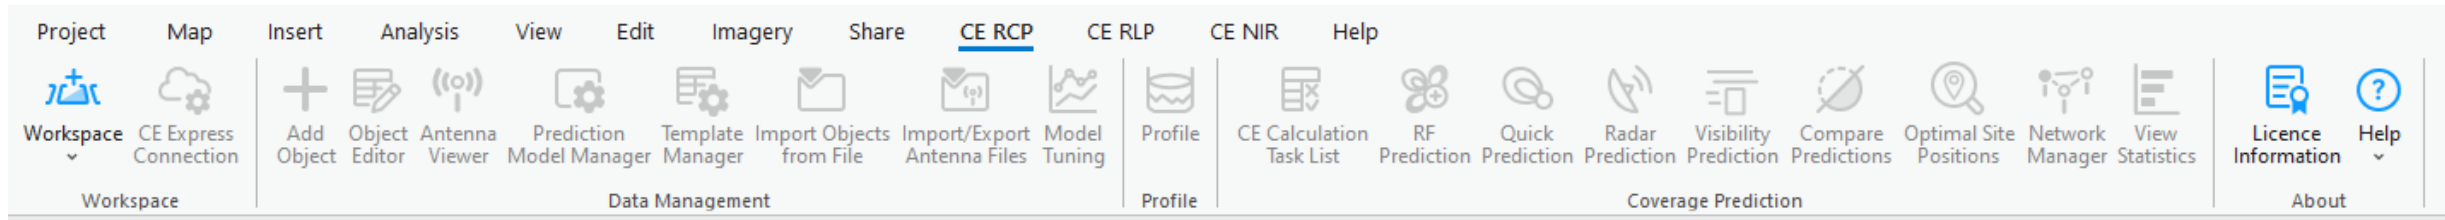

www.cellular-expert.com

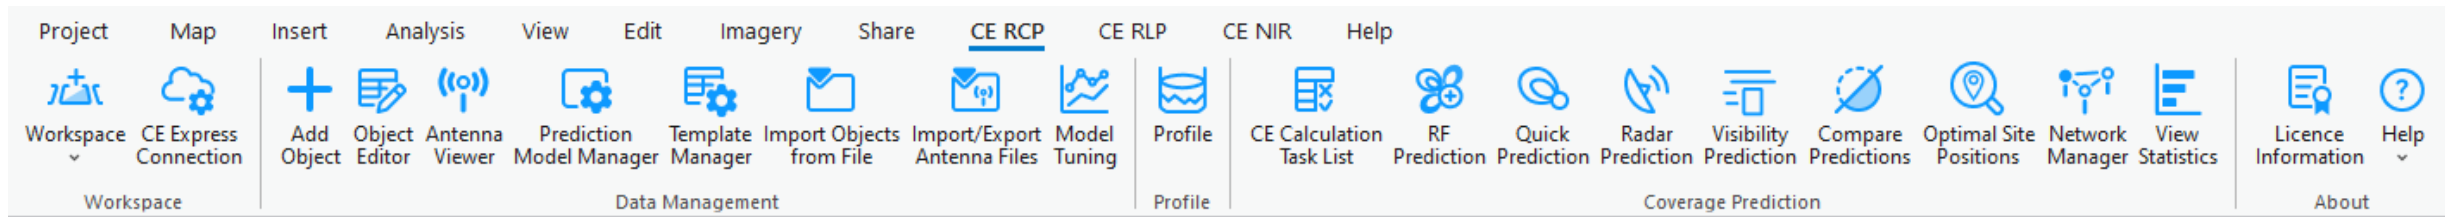

Cellular Expert for ArcGIS Pro project

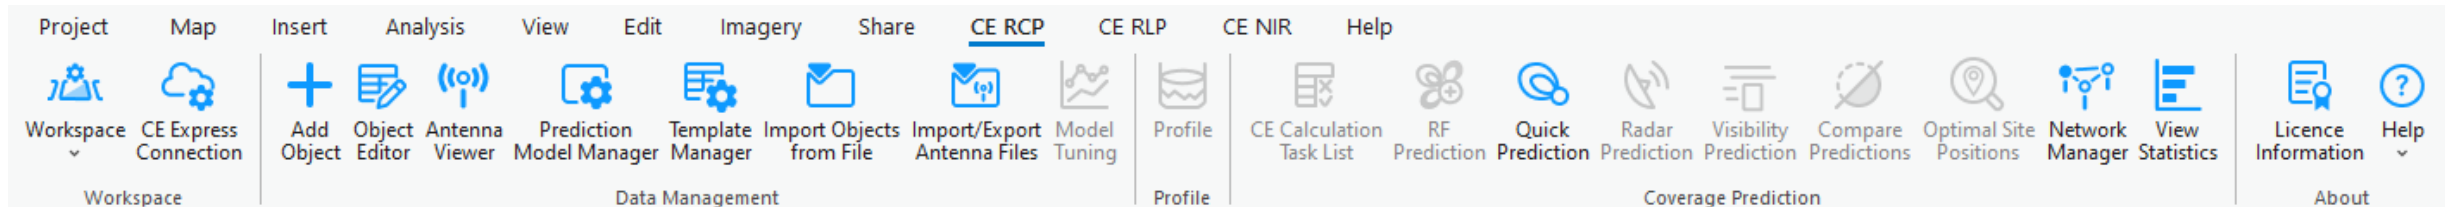

- Workspace is not added

- Workspace is added

- Workspace is added, but Geodata is missing

Create Workspace

- New workspace path
- Geodata folder path
- Projected coordinate system
- Also create Local Scene

Elevation raster found!

(Optional) Obstacles raster not found.

Projected coordinate system:

British_National_Grid

Topography

Geodata folder path:

C:\CE\Berlin\Berlin

Elevation raster found!

Building height raster found!

Clutter classes raster found!

Projected coordinate system:

DHDN_Soldner_Berlin

Spatial References of elevation and clutter class raster did not match!

Create New Workspace

New workspace path

C:\Users\rsluizevicius\AppData\Local\Temp\ArcGISProTemp8760\Untitled\Workspace\workspace.gx

Topography

Geodata folder path:

C:\CE\IMGIS2023\Vilnius

Elevation raster found!

Clutter classes raster found!

Projected coordinate system:

LKS_1994_Lithuania_TM

Spatial References of elevation and clutter class raster matched.

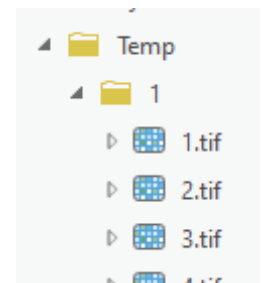

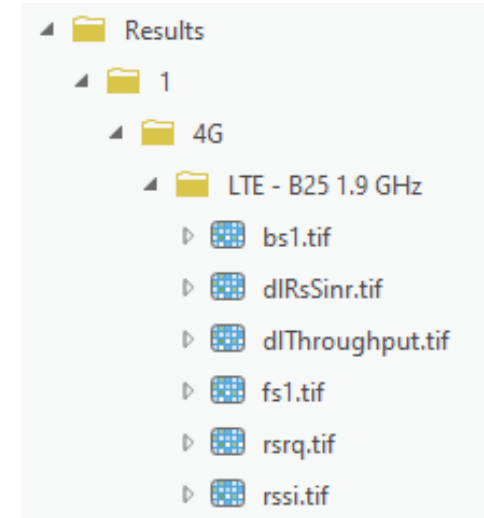

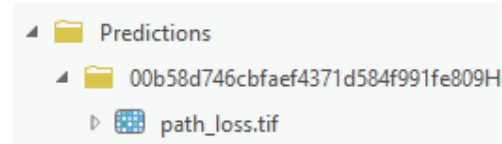

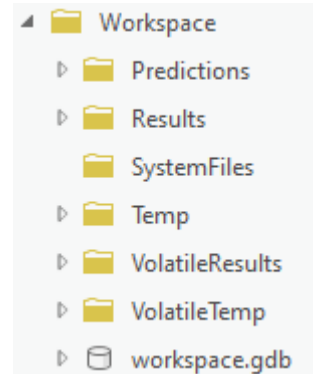

☐ Also create Local Scene

Cellular Expert Project Structure

- Predictions
- Results
- SystemFiles
- Temp
- VolatileResults
- VolatileTemp
- Workspace.gdb

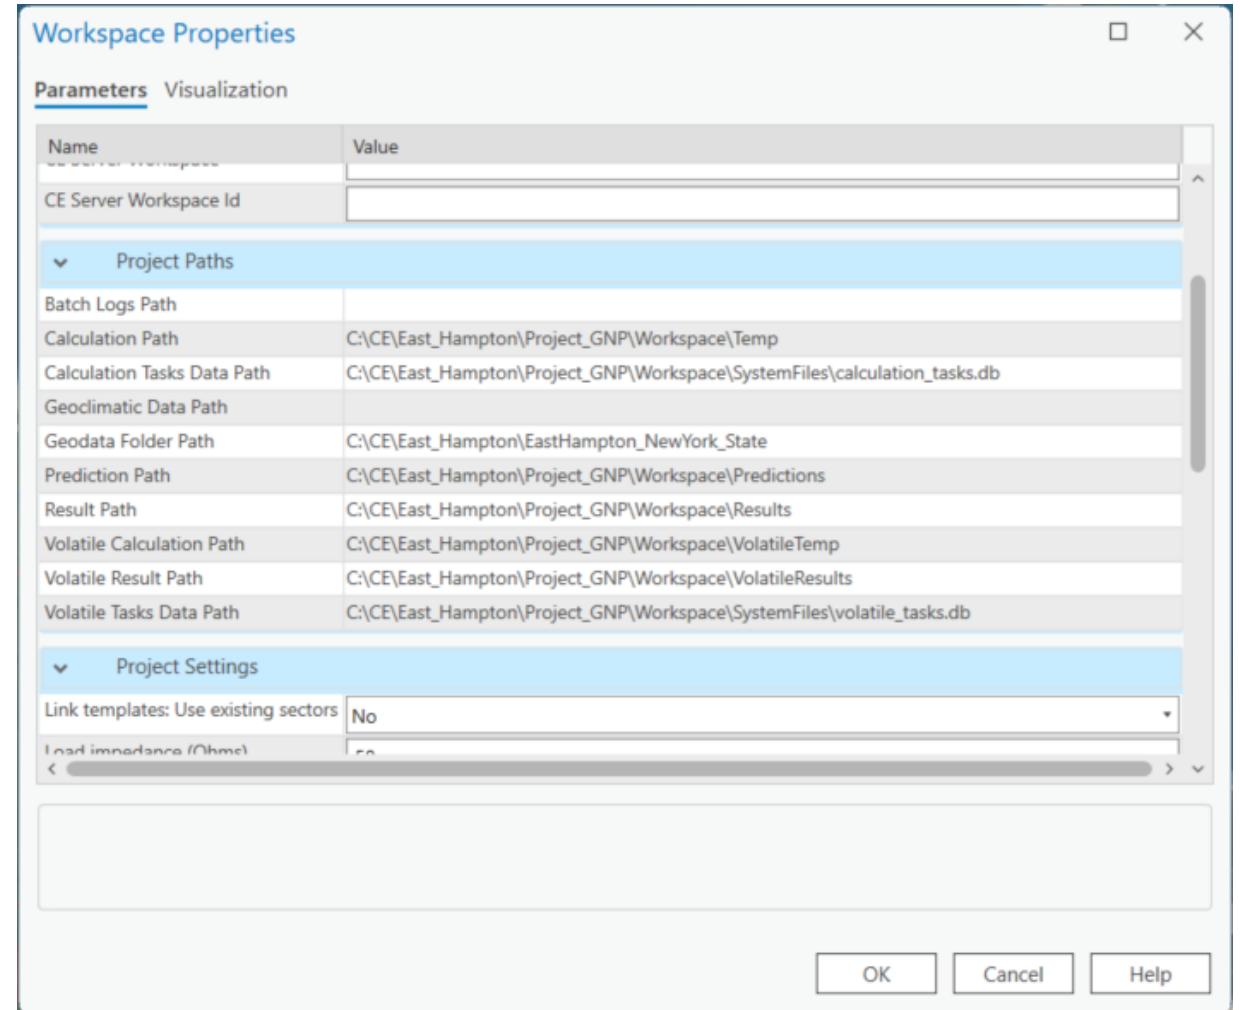

- Cell
- Site
- Radar
- Repeater
- CPE
- OMEN
- Link

Change project's path

- Geodata
- Calculation paths

Workspace Properties

Parameters Visualization

Name	Value
CE Server Workspace Id	
Project Paths	
Batch Logs Path	
Calculation Path	C:\CE\East_Hampton\Project_GNP\Workspace\Temp
Calculation Tasks Data Path	C:\CE\East_Hampton\Project_GNP\Workspace\SystemFiles\calculation_tasks.db
Geoclimatic Data Path	
Geodata Folder Path	C:\CE\East_Hampton\EastHampton_NewYork_State
Prediction Path	C:\CE\East_Hampton\Project_GNP\Workspace\Predictions
Result Path	C:\CE\East_Hampton\Project_GNP\Workspace\Results
Volatile Calculation Path	C:\CE\East_Hampton\Project_GNP\Workspace\VolatileTemp
Volatile Result Path	C:\CE\East_Hampton\Project_GNP\Workspace\VolatileResults
Volatile Tasks Data Path	C:\CE\East_Hampton\Project_GNP\Workspace\SystemFiles\volatile_tasks.db
Project Settings	
Link templates: Use existing sectors	No
Load impedance (Ohms)	50

Project Settings and Rounding

▼ Project Settings	
Calculate EIRP	Yes ▼
Enable GPU Acceleration	Yes ▼
Receiver Height Reference	Elevation ▼
Transmit power units	dBm ▼
Use Clutter Loss	Yes ▼

▼ Rounding	
Azimuth and Tilt, deg	2
Default Rounding	2
Frequency, MHz	2
Geographic Coordinates, deg	5
Power, dBm	2
Projected Coordinates, m	3

Workspace Upgrade

- Automatically tracking database structure
- Workspace > Upgrade
- Provides information about new tables and fields
- Upgrade Database

Description: C:\CE_Course\0. Descriptions
